Icon Logo

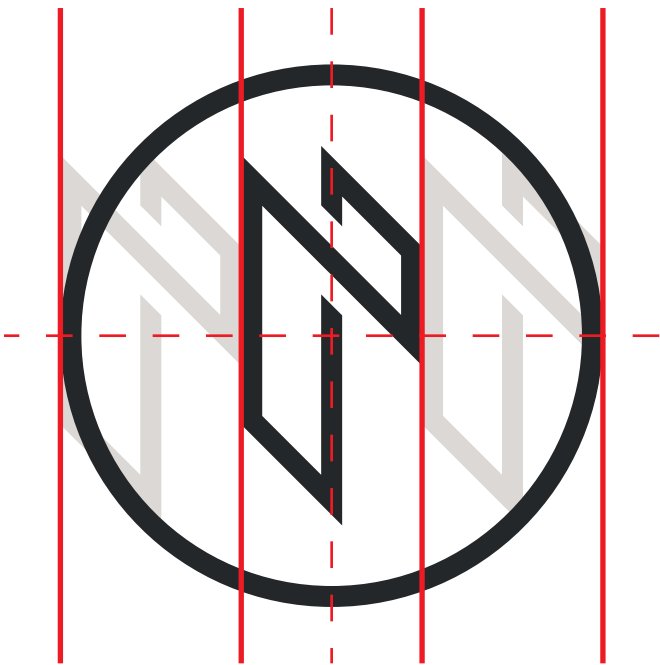

Icon Only

"R" icon can be solid black, solid white, or use the gradient. A gradient "R" icon works equally well on both black or white backgrounds.

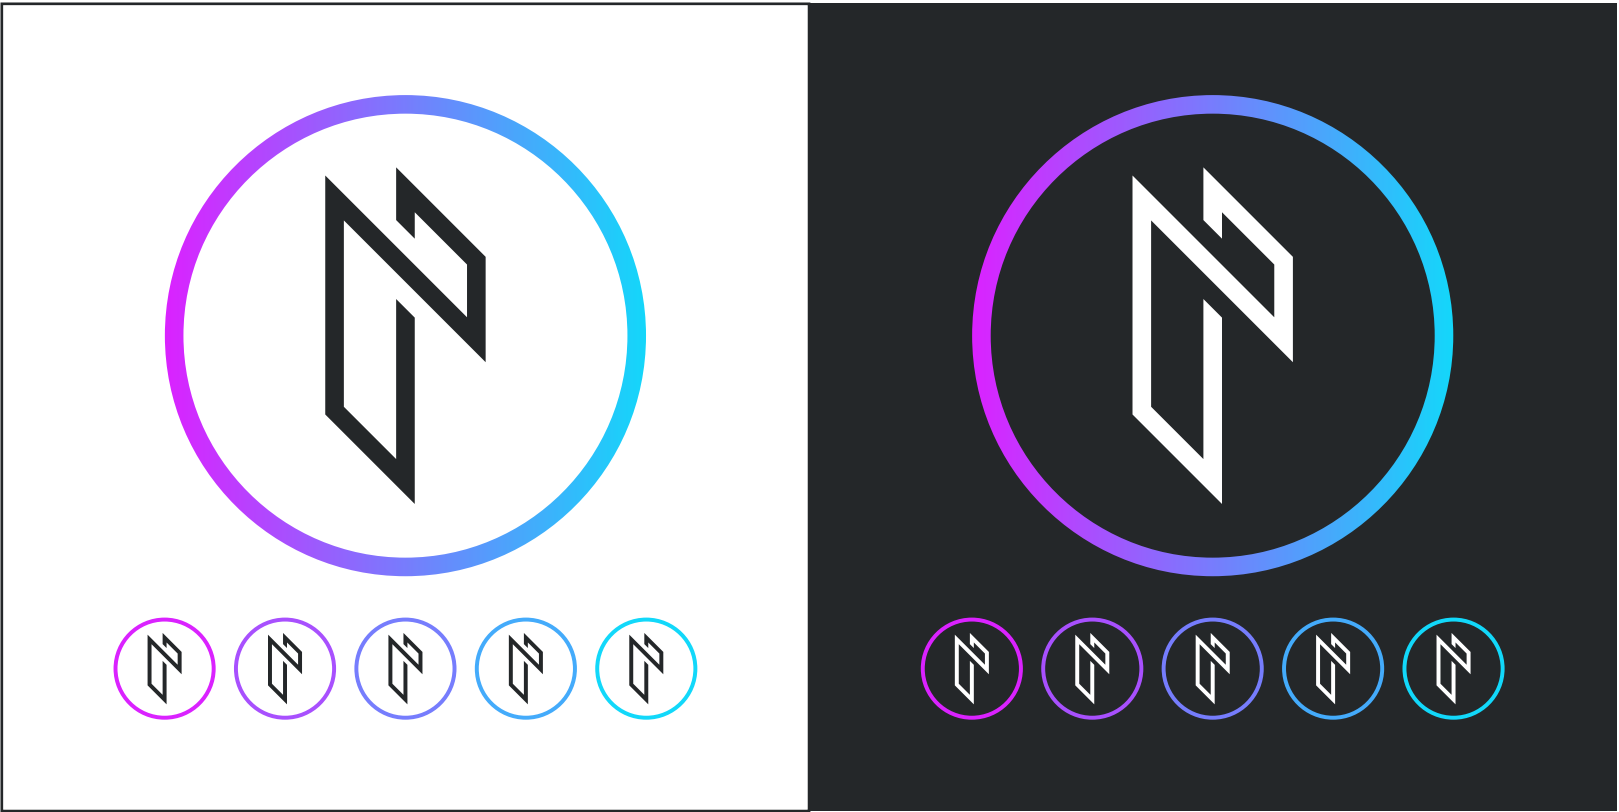

When used on a gradient background it should always be solid white.

Icon with Ring

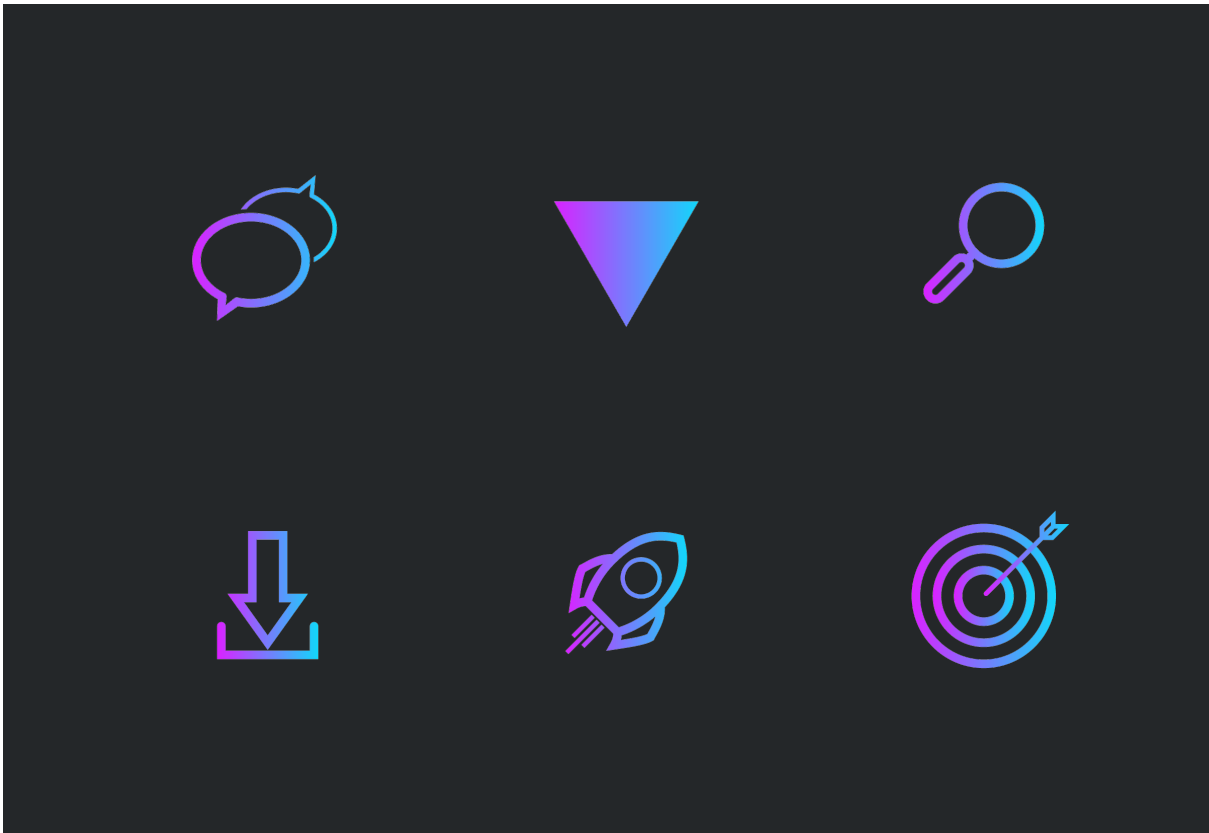

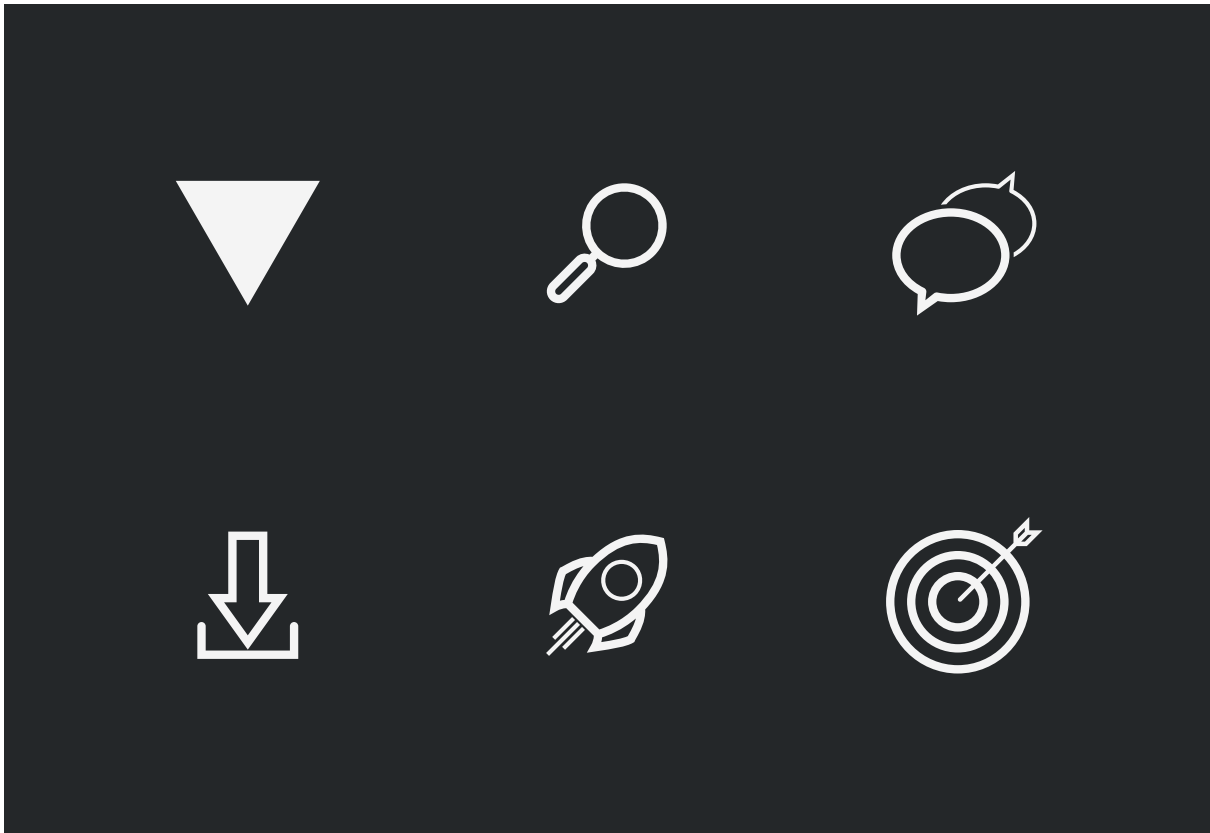

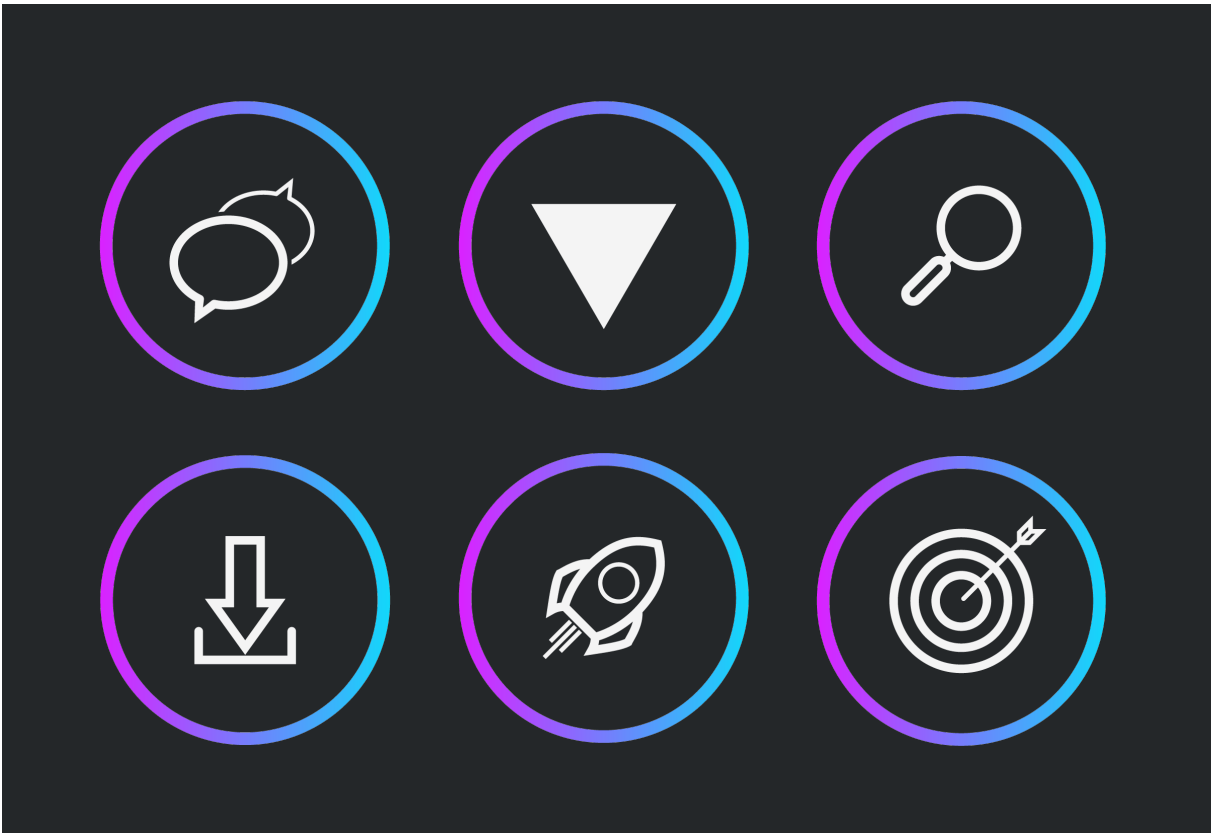

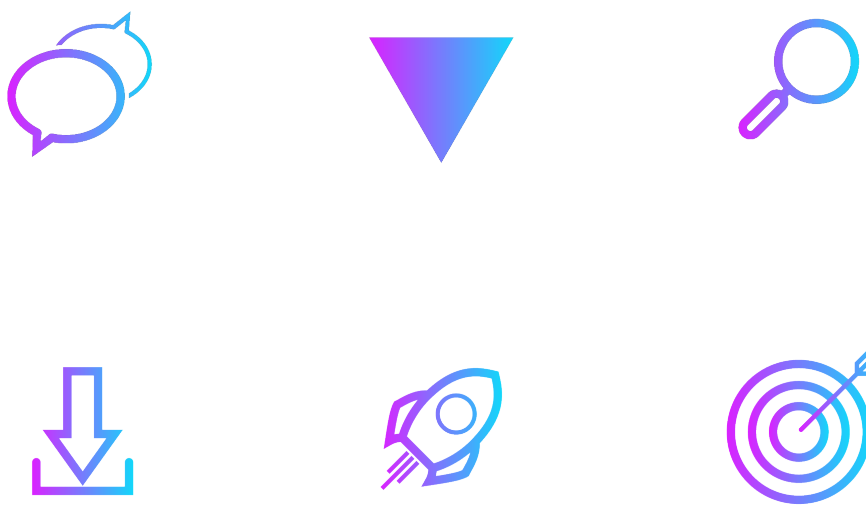

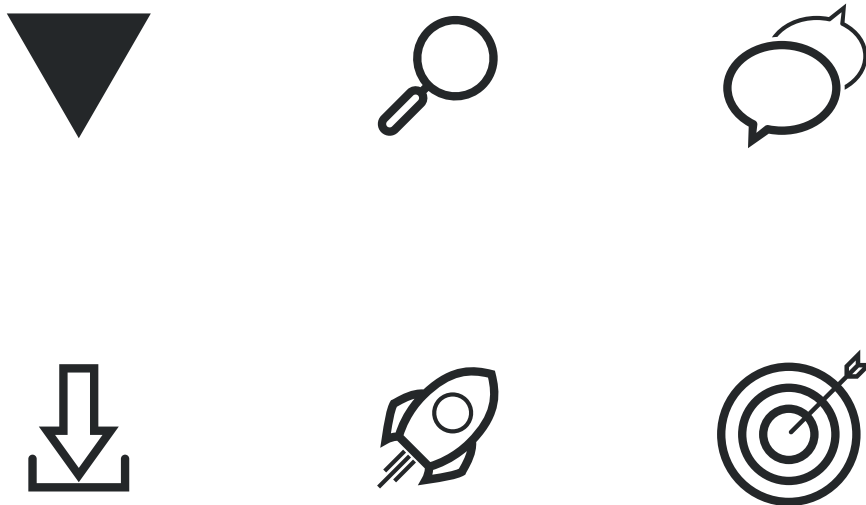

Ring width is equal to the width of three "R" icon's placed edge-to-edge. Ring stroke width equals the "R" icon's stroke width. "R" icon is centered horizontally and vertically within the ring.

Ring Color

Ring can be any of the five primary brand colors to allow added flexibility if segmentation is needed in the future. To retain visibility it's best that the "R" icon remain solid white or solid black in accordance with the "Icon Only" guidelines.
